

What is redistricting?

New York City is redrawing its 51 City Council maps.
This process is triggered by the 2020 Census.

Why does it matter?

The City's 51 Council members represent your neighborhood in City Hall. They vote on the City's \$101 billion budget and on:

- Affordable housing
- Education, parks, and sanitation budgets
- Property tax rebates
- Community safety programs
- And so much more!

Tell us what you think!

Your opinion is important in shaping these new Council districts.
Scan the QR code below to submit your thoughts on which neighborhoods should be in your district.
